Emergency Response and Preparedness Plan

This course teaches us on the handling of any emergency situation which might occur during our day to day operation. This course is designed for professionals and practitioners involved in the emergency management process and emergency response activities. This includes planning and evacuation exercises, ensuring the well-being of staff, contractors, visitors and facilities management in the event of a significant unscheduled disruption or crisis event requiring evacuation of the premises.

The Emergency Response Plan training is designed to provide you and/or your staff with sufficient knowledge about the theory of emergency situation to enable you to plan for and respond to any emergency situation in your own organisation, such as a fire, toxic release, chemical spillage.

Objectives:

- Possess good understanding of the OSHA 1994 especially on the section 15 and 24.
- Enhance the awareness and ability to identify and assess the presence of hazards, risks and take the necessary response to safeguard themselves.
- Setup, organize and arrange an effective Emergency Response Team (ERT) members.
- Understand the responsibilities of both employers and employees towards safety at workplace.
- Understand on the requirement and provision of emergency equipments/tools.
- Understand on the procedure developed and able to follow the procedure during emergency situation effectively.

Course Content:

DAY 1

- Occupational Safety and Health Act, 1994.
- What is potential emergency scenario
- What is ERP?
- What is ERT

DAY 2

- Emergency Response Team (ERT)
- Fire Protection system
