WHAT IS A CONFINED SPACE? (ICOP CS 2010)

Confined Space means an enclosed or partially enclosed space that is at atmospheric pressure during occupancy and is not intended or designed primarily as a place of work, and –

- is liable at any time to –
 - have an atmosphere which contains potentially harmful levels of contaminants;
 - have an oxygen deficiency or excess; or
 - cause engulfment; and
 - could have restricted means for entry and exit.
- Example: Manhole, Silo, Tunnel, Pipeline, excavations, trenches

August CARPARK Safety tips

- Choose safety over convenience, especially if it will serve you better to park further from an entrance
- If the parking lot is dark or you feel unsafe, get someone like a security guard to escort you to your vehicle
- Be observant. Scan your surroundings and even in your vehicle for anyone hiding inside before getting in
- Have your key ready before going to your vehicle. Rummaging in your bag or pocket at the last moment makes you vulnerable to baddies
- Get in your car, lock it, start your engine and leave immediately. Don't hang about

FIRE SAFETY TALK BY BOMBA S2

On 22nd July, a Fire Safety Talk by Bomba S2 was held at PLASMA, Seremban 2. This event was attended by AWWAM staffs.

SAFETY MOMENT 6

Health, Safety & Environment (HSE)

JULY FIRE PREVENTION ALWAYS BE AWARE

52% of electrical fires are caused by an arc of short circuit.

AFCI breakers and receptacles prevent the majority of electric fires.

Any electrical maintenance should be performed by qualified electricians to ensure fire prevention standards.

LOOK LISTEN LEARN

for potential hazards around your home | to the sound of the smoke alarm and be alert at all times | your way out in case of emergency

SAFETY is EVERYBODY'S JOB
