ENVIRONMENTAL POLICY STATEMENTS

Airwastewater Management Sdn Bhd recognizes its responsibilities and commitments towards the protection of the environment in the performance of its businesses and activities. Airwastewater Management shall conduct its businesses and activities in accordance with the following principles:

1. Compliance with Environmental Quality Act 1974 (Act 127) Regulations, Rules and Orders as far as reasonably practicable.
2. Protection of the environment, prevention of pollution and seeking improvements in the efficient use of natural resources for sustainability.
3. Implementation of an environmental management system to cover all aspects of its work activities through the provision of resources, best practices, training and professional services.
4. Prevention of environmental incidents and accidents by continually using best practicable means and risk management to control potential hazards and environmental pollution.
5. Minimization of potential hazards, wastes, environmental emissions and discharges from all parts of businesses and activities.
6. Implementation of policies, procedures and measures for continual improvements of sustainable environment.
7. Promotion of sustainable environment through continual process of consultation, communication, education and training.

All employees and stakeholders shall have personal responsibility to actively participate and adhere to this Policy and the performance achievement shall be an important element in the assessment and evaluation of their works.

The Environmental Policy Statements shall be reviewed by the Managing Director or the Head of the Company on a yearly basis, or when there has been a change to the working environment, current legislations, or existing procedures or processes.
