2 OFFERS

Training, Learning & Education (TLE)

**EQA AMENDMENT 2024, ACT A1712
EFFECTIVE 07 JULY 2024**

Compound Value

- The amount offered for a compound has been **increased** from RM2,000.00 to not exceeding **50%** of the maximum penalty amount provided for the offense.

Minimum and Maximum Penalties

- The penalties for each offense will be amended by establishing a minimum fine of not less than **RM5,000.00** and a maximum fine not exceeding **RM10,000,000.00** for offenses related to scheduled waste disposal and water pollution. (Sections 25, 27, 29, & 34B)

Company A is found to be in violation of the following issues:

- SW containers are not labeled correctly as per Regulation 10, EQSWR 2005.
- The inventory of SW is not updated regularly as per Regulation 11, EQSWR 2005.
- The storage area for SW lacks a proper spillage control as per Regulation 9, EQSWR 2005.

Question:

What is the **total compounding amount** the company would be required to pay if they were to settle the penalties for the these violations mentioned?

- RM 5,000
- RM 7,500
- RM 15,000
- RM 50,000

Answer: B

3 offenses x RM 5,000 = RM 15,000.

However, the **total compounding amount** is capped at **50% of the total** for all violations. Therefore:

The **maximum allowable compounding amount** for the three violations is **50% of RM 15,000**, which equals **RM 7,500**.

For further information, please contact our Customer Services Department (CSD) at 06-6013126/ 011-53303881/82
