NOV - DEC 2025

AWWAM MESSAGE

Air Quality Matters: Understanding the Laws That Keep Our Skies Clear

Why Air Quality Matters

- Air pollution affects breathing, heart health, and overall wellbeing.
- High-risk groups include children, the elderly, and outdoor workers.
- Common pollutants: PM10, PM2.5, NO₂, SO₂, CO.

What the Law Says Environmental Quality Act 1974 (EQA)

- Sets legal limits for major air pollutants.
- Regulates industrial emissions, vehicle pollution, and open burning.
- Allows authorities to take action and issue penalties when limits are exceeded.

How Monitoring Protects Us

- Continuous monitoring helps detect pollution spikes early.
- Real-time readings allow authorities to issue health alerts and take preventive measures.
- Data helps the public make safer daily decisions, especially during haze or high-pollution periods.

Technology That Helps: Kunak Air Monitoring Device

The Kunak Air Monitoring Device (Pro & Lite) provides high-accuracy, real-time data on pollutants.

Supports compliance efforts under the EQA.
Enables communities and agencies to stay informed, protected, and proactive.

SAFETY MOMENT

FIRST AIDER AWARENESS

WHO ARE YOUR FIRST AIDERS?

- Trained & certified to provide immediate care
- Located across key areas of the workplace
- Know them before an emergency happens

WHEN SHOULD YOU CALL A FIRST AIDER?

- Fainting or dizziness
- Cuts, burns, or bleeding
- Suspected fractures
- Chest pain or breathing difficulty
- Chemical exposure
- When in doubt – call!

WHAT A FIRST AIDER CAN DO

- Assess the scene for safety
- Provide basic first aid
- Perform CPR if needed
- Use an AED
- Stabilize until medical help arrives

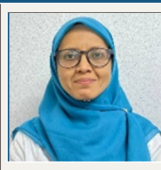

WHAT THEY CANNOT DO

- Diagnose illnesses
- Give medication
- Replace professional medical treatment

REMEMBER:

- Fast reporting saves lives.
- Know your First Aiders.
- Know how to reach them.
